Projects

AI-Enabled MERN Stack Blog Application, <i>Academic Project</i>	08/2025 – 02/2026 Patna, Bihar
- Developed a high-performance full-stack blog application using the MERN stack and deployed it via https://quick-blog-omega-liard.vercel.app/. - Integrated Google Gemini API to accelerate content creation through automatic context-aware generation. - Implemented ImageKit API middleware for real-time media optimization and improved loading speeds. - Secured backend administrative API routes with JWT authentication for authorized content management. - Enforced database referential integrity using cascading delete in MongoDB.	

Education

Master of Computer Applications(MCA) CGPA: 8.65 / 10, <i>Uttaranchal University</i>	02/2026 Dehradun, India
Successfully developed and deployed an 'AI-Enabled Full Stack Blog Application' as the final MCA capstone project.	
Bachelor of Computer Applications Score: 64.67%, <i>S.R.K Goenka College</i>	08/2020 – 09/2023 Sitamarhi, Bihar
- Acquired core competencies in Object-Oriented Programming (OOPs), Database Management Systems (DBMS), and Web Development. - Participated in academic tech fests and built basic web utility projects.	

Skills

Languages: JavaScript (ES6+), TypeScript, Python	Frontend: React.js, Tailwind CSS, Motion, Three.js
Backend & Databases: Node.js, RESTful APIs, MongoDB	Tools & Technologies: Generative AI Integration (Gemini SDK), Git/GitHub, Vercel deployment
Core Concepts: DSA, OOPs, DBMS, OS, Web Security (JWT)
